## TRAVELING IN TEXAS.

drawn down. The other had not. N. Y. Times. On a sudden at my ear, as it seemed, there was a report as of a rifle, the thick double glass in like groove which the sharp-pointed possessed his mind. A thought abomination had cut for itself was struck her, which she put into sufficient to assure me that he was practice at the first opportunity right. But think of the atrocious that day. "Boys," said she, character of such mischief! The man "what can you tell me about who did it probably never thought flies?" and calling some of the of hurting any one. And yet he nar- brightest by name, she asked them rowly missed having a horrible if they could tell her something of crime on his head. "If we could a fly's constitution and habits. have stopped the train and caught They had very little to say about him we would have lynched him," the insect. They often caught

## Y. World. Ingersoll and Christianity

There is now no danger that Catholics will burn Protestants, or Protestants burn Catholics. Men have learned that fire is not an argument that appeals to the intellest. No church or sect now when he had finished she said: dreams of making converts with charge can Mr. Ingersoll bring, except that it asks assent to doccannot charge Christianity with cannot, by the widest efforts of ing something of mathematics, sophistry, be viewed as an encour- geography and grammar for the agement to crime. Bitterly as successful carrying out of his fa-Mr. Ingersoll hates Christianity, vorite study, and he made rapid be must admit that its influence is progress in his classes. In short, on the side of moralitity and deturned twenty years later be was eminent ment.

We were nearing Atlanta. The community, however ridiculous cess, as he never hesitated to actrain was on a down grade and may be its peculiar religious de- knowledge, to that discerning going very fast indeed-perhaps lusions, is higher in the scale of teacher. half a mile a minute. I was sit- morality than any pagan commuting on my seatin the Pullman, nity. Also it is an undeniable with the table up in front of me fact, that hundreds of thousands of reading. At the other Christians bear life and face the end of the car was a lady with fear of death with a courage and some children, sitting with her hope which spring wholly from their back to me. Opposite her, but religion. Mr. Ingersoll surely canalso with his back to me, was the not claim that he is trying to abolconductor. Each "section" of a ish Christianity because it makes

car has two windows. The one men worse and more hopeless at my left elbow had the blind than they would be without it .- predicted that seventeen years Developing a Boy's Bram A teacher had charge of a school envied of her sex-the most front of me flew into fragments all in a country town early in her aristocratic woman on the contiover me, and the woodwork fell in career, and among her scholars nent. Now she is the subject for splinters upon my book. I instant- was a boy about 14 years old, who scandal; broken in fortune and in ly pulled up the blind of the other cared very little about study, and health. So goes the world. The window to see who had "fired," showed no interest apparently wheel turns and turns. The man But, of course, at the speed we in anything connected with the who is up to-day is down toschool. Day after day he failed in morrow. Our American aristosight. I called to the conductor his lessons, and detentions after cracy is short-lived. It starts that some one had fired through school hours and notes to his from a wax-end to-day, flourishes the window. He had not heard widowed mother had no effect. in silks and satins to-morrow, and the explosion, nor had the lady, One day the teacher had sent him ends in a ditch the day after. and their surprise was consider- to his seat, after a vain effort to A San Francisco policeman who erable. And while I was looking get from him a correct answer to got nothing but curses for resenin the woodwork for the bullet I questions in grammar, and, feeling ing a would be suicide from a expected to find, the conductor somewhat nettled, she watched his watery grave, is said to have sopicked off the table a railway spike. conduct. Having taken his seat, liloquized: "If you are crazy the Some wretch had thrown it at the he pushed the book impatiently world won't miss you; if you are passing train, and the great ve. aside, and, espying a fly, caught it not crazy and want to put an end locity at which we were traveling with a dexterous sweep of the to yourself you are a fool not fit A friend furnishes us the folgave the missle all the deadly hand, and then betook himself to a to live. I ought to throw you lowing memorandum of the diforce of a bullet. "An inch or close inspection of the insect. For in again." Which he did, and mensions of the vessel in which two more in the center of the lifteen minutes or more the boy the lamp of the once rescued Columbus discovered America: window, sir, and you would have was thus occupied, heedless of man's life went out beneath the length of keel, 51 feet; depth of been killed, probably," said the surroundings, and the expression salty waters of the bay. brakeman. A look at the splin. of his face told the teacher that it tered woodwork and the bullet- was more than idle curiosity that

said the conductor. "A year or one, but only for sport, and did two ago a miscreant threw a corn- not think it worth while to study cob into a window-very near this so common an insect. Finally she spot, too. It struck a lady, break- asked the dunce, who had silently, ing her cheek bone and bursting but with kindling eyes, listened to the ball of her left eye.
